DEPUTY SECRETARY-GENERAL, WMO

INTEGRATING CLIMATE RISK INFORMATION INTO NAPS

NAME: Carol-Anne Blenman

DATE OF ISSUANCE: September 2, 2021

LEARNING OBJECTIVES:

- Describe the importance of climate information in adaptation planning and decision-making
- Identify technical resources for assessing climate risks
- Discuss how priority climate actions can be enhanced by climate scientific information
- Discuss how to promote effective partnerships between climate information producers and users

MODULES – LEARNING TRACK 2:

1. Introducing Climate Information Services
2. Climate Science for Adaptation
3. Building Better NAPS
4. National Dialogues for Climate Action

DURATION: 4 estimated hours for completion.

This course has been developed by the United Nations Institute for Training and Research (UNITAR) and the World Meteorological Organization (WMO) in the context of a wider training package on “Integration Climate Risk Information into National Adaptation Planning” which comes to support countries with the development and implementation of the adaptation component within their National Determined Contribution.
