NAME: Carol-Anne Blenman

DATE OF ISSUANCE: January 6, 2022

LEARNING OBJECTIVES:

- Discuss the importance of inclusion of various stakeholders and institutions in the NAP process.
- List some examples of important climate data and information necessary for the NAP process, as well as discuss their possible sources locally and internationally.
- Explain how climate change adaptation planning could be integrated across different climate sensitive socio-economic sectors.
- Discuss common national and international sources of climate adaptation finance relevant for the NAPs.

LESSONS:

1. Module 1: Exploring and Developing a NAP.
2. Module 2: Implementing and Reviewing a NAP.
3. Module 3: Financing the NAP process.

DURATION: 3 estimated hours for completion.

This e-course is a learning initiative of the UN Institute for Training and Research (UNITAR), the One UN Climate Change Learning Partnership (UN CC:Learn) and part of the National Adaptation Plan Global Support Programme (NAP-GSP). The NAP-GSP is a joint programme, implemented by UNDP and UN Environment, in collaboration with other UN Agencies to assist countries with their NAP processes. The programme is funded through the Global Environment Facility (GEF).
