

Violeta Consulting Services

Simply more than just research

Company Profile

- Violeta Consulting Services, founded in February 2013, is a Barbadian-based company aimed at providing high-quality economic research at the national, regional and international levels on issues related to sustainable development.
- To become a recognized leader in the field of Developmental Economics by establishing linkages and maintaining connections with many local, regional and international organizations that I have the potential to work with and to contribute to the advancement of the Barbadian economy and the wider region through such collaborative efforts.
